

Reimagined Healthcare  
Requires Reimagined Intelligence

Curie|ENDEX

## DRIVE EFFICIENCY AND ENHANCE PRODUCTIVITY

- Eliminate hanging protocol display issues
- Reduce manual intervention for radiologists and PACS Administrators
- Improve radiologist satisfaction with your PACS
- Lessen potential repetitive stress injuries
- Enrich data with reliable, clinically relevant labels and metadata
- Enhance workflow orchestration

About  
Enlitic

Founded in 2014, Enlitic is a medical intelligence company that believes in evolving patient care. Our products, innovations, insights and solutions were developed with Enlitic Intelligence - Intelligence designed for Collaboration, Adaptability, Relevance, Enlightenment. Or as we say, Intelligence that CARES..

## Medical Image Standardization

### THE PROBLEM

In today's medical imaging department countless hours are wasted dealing with problems that affect hanging protocols, image routing, and AI orchestration. At the core of our healthcare interoperability challenges is non-standardized clinical data.

- Series are technically identical but labeled differently creating display and processing issues
- Series descriptions lack clinical relevance
- Different facilities label studies differently, making comparisons impossible
- Data is missing or inaccurate
- And more...

### WHAT WE DO

Curie|ENDEX transforms medical imaging data to a consistent, clinically relevant standard nomenclature and enables relevant clinical content linkage across different IT systems. Endex enables consistent display of hanging protocols, improves image routing and orchestration intelligence.

**4x** Reduced mouse mileage

**2-5x** Return on investment

**22-43s** Saved per study

### HOW IT WORKS

- ENDEX maps heterogeneous DICOM headers to a defined universal ontology
- Studies and series now appear with normalized descriptions, enabling hanging protocols to work
- Relevant, uniform descriptions facilitate faster reporting time, easily queried studies, and less frustration from radiologists
- Manual intervention is reduced by 22-43 seconds per study
- Admin staff reclaim time from mundane tasks

### Curie|ENDEX WILL:

- **Enhance** your workflow and **increase** operational productivity
- **Improve** radiologist job satisfaction
- **Reduce** your physician burnout
- **Decrease** the complexities of PACS hanging protocols
- **Expand** capacity across multiple roles
